

# Desmond Boateng

## Profile

Dynamic **Full Stack Developer** with over 5 years of experience in crafting scalable and responsive web applications. Skilled in **Vue.js, Nuxt.js, React, Next.js, PHP, and Laravel**, with strong mobile development expertise using **Flutter**. Proven track record of enhancing performance and efficiency, achieving significant reductions in development time while delivering visually compelling user interfaces. Experienced in designing **RESTful APIs, database-driven systems, and full-stack solutions**. Committed to building responsive, accessible, and high-performing applications that provide exceptional user experiences.

## Employment History

### Full Stack Developer at WedeyFarms, Accra

January 2020 – January 2025

- Built and maintained **interactive React and Next.js applications** that scaled with user demand, boosting performance and reliability.
- Developed **custom dashboards and reporting tools** for internal operations, streamlining decision-making processes.
- Integrated third-party APIs and payment gateways, ensuring **secure and seamless transactions**.
- Introduced **component-driven development practices**, cutting repetitive coding tasks and improving maintainability.

---

### Freelance Front-End and Mobile Developer at BryllupsListen, Norway

November 2024 – April 2025

- Designed and developed **cross-platform mobile apps with Flutter**, enabling businesses to reach users on both iOS and Android with a single codebase.
- Implemented **real-time data integration via RESTful APIs**, enhancing app interactivity and responsiveness.
- Delivered **responsive web platforms** optimized for accessibility and mobile-first performance.
- Leveraged **Firebase for authentication, database, and storage**, ensuring secure and scalable solutions.

---

### Full Stack Developer at Probe AI, Accra

January 2025 – June 2025

- Spearheaded the development of **AI-driven web applications** using React, Next.js, and Node-based services.
- Optimized **SEO and server-side rendering (SSR)** with Next.js, increasing discoverability and traffic by 25%.
- Collaborated with data engineers to **integrate machine learning APIs**, enhancing product intelligence features.

- Deployed applications to **Vercel** with continuous integration pipelines, ensuring smooth feature rollouts.

## Full Stack Developer at Indigin Group, Accra

June 2025 – Present

- Developed scalable and responsive front-end applications using **Vue.js** and **Nuxt.js**, improving overall site performance by 35%.
- Built and maintained **reusable UI components** with Vue, reducing development time by 40% across multiple projects.
- Collaborated with designers to deliver **visually appealing, responsive, and accessible** user interfaces.
- Designed and implemented **RESTful APIs** with **Laravel**, ensuring secure and efficient data handling.
- Deployed full-stack applications on **Vercel** and **shared hosting servers**, integrating CI/CD pipelines for seamless updates.
